

### TLT4000 Series

#### Time is Money

The acquisition of operational data is one essential component of successful business planning.

Optimal workforce management effectively controls work processes and helps you increase the productivity of your business and reduce costs.

TIMELINK provides highly flexible system solutions, based on Ethernet, PoE and WiFi applications, which require only minimal installation and maintenance services but allow for maximum control and transparency.

All operational information relevant to time economics is collected by a certified data acquisition architecture, which includes pre-built interfaces to further well-established ERP applications.

TIMELINK's product line is the ideal partner for your individual requirements to an optimized organization or reorganization of time and workforce management.

With TIMELINK you benefit from almost boundless possibilities to get a grasp on costs and time. TIMELINK offers you the whole range of modern information technology.

- Predefined badges allow for instant accounting.
- Matching of badge numbers against employees via browser.
- Add specific definitions and parameters of the company or the employee, such as vacation time, extra time or flex time.
- **Works even without badge!**
- Biometric devices with integrated fingerprint reader
- Introduce finger to the fingerprint capture surface – sophisticated device "learns" fingerprint – make your next accounting entry with a touch of your finger.
- No risk of losing or forgetting any identification media

## TLT4000 Features

Time collection - Access control - Data collection

### Reader system options

- Reader system with Legic, EM, HID, Hitag, iClass, Magstripe and Barcode, Mifare, Biometric (fingerprint) and ISO15693.

### Host interfaces

- Ethernet 10/100 Mbps to SAP, Peoplesoft, ZINA, INTARAP/N, etc

### Protocols

- TCP/IP (IPv4, IPv6), HTTP, SSH & FTP, SMTP, NTP, DHCP, ICMP, Serial, SNMP, XML via TCP/IP, Webservice

### Features

- JAVA VM on a Linux OS
- Sabotage detection
- Acoustic signals up to 97 db
- 128 x 64 display pixels or 20 x 8 display characters
- Multilingual, time zones
- Web server for administration
- Parameterizing via XML
- Condition Based Maintenance
- 10/100 Mbps Ethernet (RJ45)
- Integrated power supply

### Options

- Serial Connector (for Barcode scanner)
- White Label Logo
- UPS (battery backup)
- PoE IEEE 802.3af (Power over Ethernet)
- Modem/ISDN
- IP65 housing

### Dimensions

4.7 x 4.7 x 1.5 in (120 x 120 x 40 mm)
